Subject: ANOTHER DISGUSTING SPILL IN TEGA CAY

When are you going to do something about this? Another Spill into the lake on May 6th. Never even got the all clear from the last one.

What will it for you to clean up the Utilities, Inc. services? Would you do nothing if it was your neighborhood with sewer water running into your lake?
Dear Mary,

Utilities, Inc. has experienced another spill at Waste Water Treatment Plant #2 in Tega Cay. As of mid afternoon, the water was still overflowing at the treatment plant.

At approximately 10 am, the Tega Cay Water Citizens Advisory Council received a reply call notifying us that sewer spills had occurred overnight at Lift Station 3 and Waste Water Treatment Plant #2.

We immediately went to check it out... and

WE WERE SICKENED BY WHAT WE SAW !

Much of the ground both inside and outside the Waste Water Treatment Plant fence were under water, with sewage continuing to spew out, even at that hour (approximately 10:30 - 11:30 Monday morning, 5/6/13). Worse, it had formed a river that was swiftly flowing across the ground and into the stormwater drain, and then after traveling a number of yards, spilling right into the Lake Wylie cove nearest the plant.

If you'd like to see more of our video footage, check it out on YouTube. From YouTube.com, enter Tega Cay Water Service in the search bar, or JUST CLICK HERE.

Why would we walk thru poo to video this ? Because everyone needs to SEE what is happening. Share it and send the YouTube link to others -- this affects are whole community, not just those that live in TCWS service areas. This impacts property values, the reputation of our city, the condition of our lake and affects golfers, visitors, boaters, and all those that use our community, beaches, parks, lake and golf course.

NO more excuses. It's time for action. DEMAND THAT THIS BE THE LAST SPILL FOR TCWS.

We are expecting more rain this week. Will that mean yet another spill?
